*BOS Partnering Plus2 consists of standard partnering access 14 days prior to event plus an additional 2 working days access prior to the event*

*Comments from BOS Basel 2019 attendees which took place on the 19th/20th June, 2019"*

This meeting was a very useful way of catching up on latest regulatory requirements and best practices for outsourcing strategies. The questions and discussions following the presentations allowed participants to compare experiences and learning points. It was also a great opportunity to meet with service providers for an initial discussion or with friends and colleagues for an update.

*Paul Madeley, Managing Director, Synth-Isis Ltd.*

The Bio2Business conference was a great opportunity for Acino Contract Manufacturing to present ourselves as a flexible and reliable CMO, that is trying to disrupt the way pharma companies and CMOs are working together by changing the mindset of the relationship and enable both partners to be more agile. We had many interesting discussions and visited very exciting speeches of different customers, suppliers and industrial professionals, which will help us to further develop our services and our customer centric way of working. Especially as a company that originates in the area of Basel, we were very happy to sponsor the Bio2Business conference and thereby strengthen the industry next door to our production facilities.

*Felix Faupel Head of Contract Manufacturing, BOS Basel 201.*

Very well organised, pertinent and useful conference bringing buyers and suppliers together. Participating you can gain important inputs for the evaluation, selection and maintenance of the critical and complex buyer - supplier relationship in the pharmaceutical development and manufacturing sector.

*Fabio Fajs, Director CMC Projects, Auris Medical.*

BOS Basel 2019 was again a very interesting event to meet, have good business discussion and increase network at small and large Pharma. Also to attend some interesting sessions on latest technical/scientific developments of value to our industry.

*Pedro Rosado, Director Business Development, SK biotek Ireland.*

Great event: well organized and delivered presentations interesting and well connected to my job 1:1 sessions not invasive and agenda up to the attendee.

*Andrea Calenne, Senior Manager External Manufacturing, Biogen.*

The BOS is a good stage to get connected with manufacturing managers throughout the industry, from small molecules to biologics, to vaccines. It was great to hear the problems from the client side and the CMO side alike, the challenges and the trends.

*Andrea Aspoeck Head of External Manufacturing, Hookipa Biotech AG.*

## PARTNERING AT BOS EVENTS 2025

General Partnering: To open 2 weeks prior to the event and to close on the afternoon proceeding the event. Any participant can send a meeting request to another participant provided that person has not made themselves unavailable for the meeting timeslots or that all their time slots are full.

## BOS EVENTS COMPANY PROFILE

The screenshot displays the Bio2Business website interface. At the top, there is a navigation menu with links for PROGRAMME, SPEAKERS, ATTENDEES, EXHIBITORS, SPONSORS, POSTERS, EXCHANGE, REGISTER, and OPTIONS. The main header features a large, colorful collage image with text for 'BOS BASEL 2022' (8th and 9th June, Basel, Switzerland), 'BOS VIRTUAL' (Ongoing through 2021), and 'BOS MANCHESTER 2022' (16th and 17th November, Manchester, UK). Below the header, there are buttons for 'BOS Virtual Messaging' and 'Book Meeting', along with social media icons for email, LinkedIn, and Facebook. The main content area includes a section titled 'Bio2Business BOS Events' with a brief description of the company's mission and a 'CLICK HERE VIRTUAL' button. Below this is a 'Meet the Team' section featuring five team members: Mr Chan Cheung (Product Development), Mr Richard Collins (Managing Director), Mr Roger Green (Director), Mr Simon Tarpey (Consultant), and Mr Adrian Rowbotham (Director). Two placeholder images for team members are labeled 'AWAITING PHOTO'.
